Our workshops are designed for individuals who are willing to step forward and make things happen. They are designed for people who want to overcome their fear of presenting in public and stand out from their peers. The most powerful skill a person can acquire is this gift of giving public presentations but it is also one of our greatest fears. In the business world we are all challenged with the fear of presentations or addressing groups.

Ask us about the **PRESENTATION POWER: IMPACT Seminar June 25th 2010**

“Geoffrey’s speech went by so fast”, and “Are you sure that was 45 minutes?”, we knew we had selected the master of communication skills. When people enjoy listening to you for 45 minutes and ask for more, all I can say is “does it gets any better?”

**Conference Chairman,
Toastmasters International**

“Geoffrey, you truly understand not only how to speak, but also – and perhaps more importantly – how to get people to listen. Thank you so much.”

**A. Martin, President Great
Canadian Gaming Corporation**

“Geoffrey’s content and delivery was equally powerful. Geoffrey is a natural keynote presenter who can immediately connect with is audience and intuitively adjust his presentation.”

**L. Leontowich, Learn to Thrive
Conference, Edmonton**

“Speaking is an art as we discussed, but the most important and the best part of your talent is that you don’t speak to the audience, you have an incredible talent of being part of the audience!”

**E. Willis,
Executive Director ABA**
